

ABDULMAJEED ABDULLATEEF

Front-End Developer | Aspiring Full Stack Developer

No.1 Gatta Road, Kudenda, Kaduna | +2349078985010 | majeedlateef82@gmail.com

[GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Passionate front-end developer with a strong foundation in computer science and education technology. Currently advancing full stack development skills through the Colab Fellowship program. Combines technical expertise with excellent communication abilities to create user-friendly web applications and solve complex problems.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript
- **Frameworks/Libraries:** Learning React
- **Tools:** Git, GitHub
- **Additional:** Responsive Web Design, Web Accessibility
- **Other Technical Skills:** Cybersecurity fundamentals, Computer Science principles

PROJECTS

Emjay Global Handyman Marketplace | [GitHub](#)

- Designed and implemented the front-end interface for a handyman services marketplace
- Created responsive UI components using HTML5, CSS3, and JavaScript
- Built interactive service browsing and filtering functionality using vanilla JavaScript
- Implemented mobile-responsive design with custom CSS and media queries

Coffee Landing Page | [GitHub](#)

- Developed a responsive landing page using HTML5, CSS3, and JavaScript
- Implemented modern design principles and responsive layouts
- Practiced Git version control and GitHub project management

Guess Game | [GitHub](#)

- Built an interactive number guessing game using JavaScript
- Implemented DOM manipulation for dynamic user interface updates
- Created engaging user experience with custom feedback and game logic

To-Do List Application | [GitHub](#)

- Developed a functional task management application with HTML, CSS, and JavaScript
- Implemented CRUD operations (Create, Read, Update, Delete) for task items
- Added local storage functionality to persist user data between sessions

EDUCATION & TRAINING

Colab Fellowship Program | Present

- Intensive front-end web development fellowship focused on practical skills
- Completed Colab Code School with emphasis on HTML, CSS, and JavaScript
- Building front-end web applications with modern development practices

Colab Full Stack Development Training | Present

- Currently learning full stack development with focus on React
- Expanding front-end skills to include modern JavaScript frameworks
- Developing more complex web applications with advanced functionality

Higher National Diploma, Computer Science | Kaduna Polytechnic, Nigeria | 2022

RELEVANT EXPERIENCE

Computer Science Teacher | Nusray International School | Present

- Developed an interactive curriculum that incorporates web development fundamentals
- Created practical coding exercises using HTML and CSS for students
- Utilized digital tools to enhance student learning experience

Cybersecurity Specialist | CISCO Cyber Security | September 2021 – January 2022

- Analyzed and secured IT infrastructures to safeguard data and systems
- Applied technical knowledge to identify potential security vulnerabilities
- Provided strategic recommendations for cybersecurity improvements

HTML Programming Language Tutor | Space World Computer Institute | August 2016 – November 2016

- Designed and delivered comprehensive HTML programming curriculum for beginners
- Developed hands-on coding exercises focused on practical web development skills
- Mentored students through their first web development projects

CERTIFICATIONS

- Cybersecurity Fundamentals – Cisco
- HTML Programming – Space World Computer Institute

SOFT SKILLS

- Problem-solving and critical thinking
- Clear communication and technical explanation
- Team collaboration
- Adaptability and quick learning
- Attention to detail
